

ecEnd Cover Angle

PRODUCT DATA SHEET
U.S. Patent 11,066,846 B1

PART: ecEnd Cover
REV: E
DATE: 2026-06-02
SHEET: 1 of 1

DESCRIPTION

Aluminum angle trim that finishes the exposed end of an ecPanel run in the patented ecFence privacy fence system. Anchored to the post with color-matched screws; the projecting leg covers the exposed panel ends, leaving a clean fastener-free face. Available in standard ecFence finish colors, sized per fence section for residential and commercial perimeter applications.

INSTALLATION & FASTENING

FASTENERS	COMPONENT LENGTH		FIELD CUTTING
Fastens to the post with three #10 × 3/4 in color-matched self-drilling screws — top, middle, bottom. Or wedge into place behind installed panels with a rubber mallet — no screws needed.	Fence Height	ecEnd Cover Length	Field-cuttable to any length. Use a miter saw with non-ferrous metal blade (TCT, 80T+) for cleanest cuts; a grinder with cutoff disc works but is rougher. Deburr edges. For runs over 70 in, splice with a cut piece or order custom length.
	4 ft	45 in	
	6 ft	70 in	
	8 ft	95 in	

Per fence section.

STORAGE & HANDLING

Do not store packaged end covers outdoors. Repeated sun and rain cycling traps humidity between the packaging materials and the powder-coat finish, which can stain the coating and imprint a surface texture into it. Store indoors or under fully waterproof cover until installation.
